

***MICRO FILM ACADEMY (MFA)  
- PARTNERSHIP PROPOSAL***

## WHY SHOULD YOU CARE ABOUT THIS PARTNERSHIP PROPOSAL?

Within the last few years, we have seen a decline in enrolment numbers within Private Higher Education Institutions all over Malaysia especially in relation to the cinematic arts/media/communications departments but yet a massive influx and growth in the Private International School Institutions especially in the areas of the pre-school, primary and secondary school tiers.

***Heading into the Fourth Industrial Revolution, the landscape of Education is evolving with the times.***

***Our first move education programme*** which emphasizes and focuses on International School demographics would lead potential student prospects indirectly into your institution pathways, therefore securing future enrolments within your programmes surrounding cinematic arts/media/communications.

## WHY IS OUR MFA PARTNERSHIP PROGRAMME BENEFICIAL FOR YOU?

### 1. FUNNELLING SYSTEM

We will act as a **FUNNELING SYSTEM** where the students who come up to our programme from the international schools and to our children centres will then have the catchment with relations to the endorsing university's name, and at the end when they think of film making, creative arts or anything to do with video content creation, they will think of your university.

The probability of them entering or selecting that university to enrol in is higher. Even if it is 10% of 1000 students in the student pool, that is 100 sign ups assured in terms of probability.

### 2. 1% MONETARY CONTRIBUTION

We will give a **1% MONETARY CONTRIBUTION per head of every student** of MFA in the international school sign up to our official university partner.

Example: If our rider right now is at RM500, that will work up to RM5 per student which will be paid out to the university.

# WHAT IS MFA?

An institution which empowers its customers to make their lives and organizations better through the creative and innovative education of filmmaking utilizing micro devices available in their pockets.

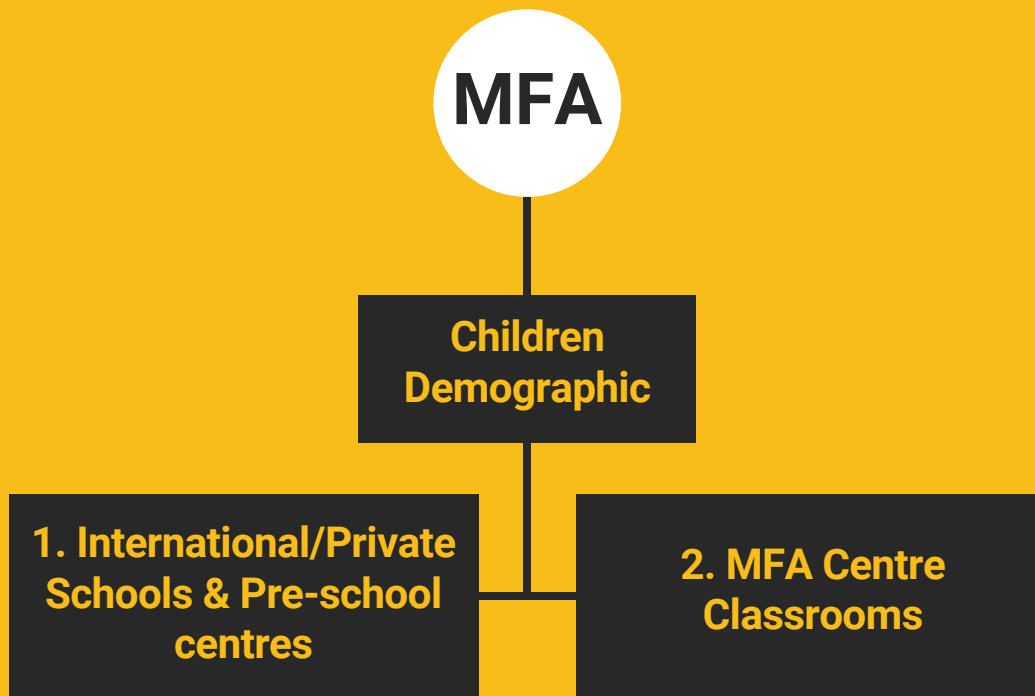

We educate using 1 strategic item :

## EDUCATION

- *A tailormade bespoke programme based on specific international school student needs prepared by professional practitioners and academics in the film and film studies industry.*

# TARGET MARKET

## OVERVIEW

## DISRUPTIVE MODEL ACROSS TARGET MARKETS

*To challenge and replace the traditional extra curriculum education industries such as piano, ballet, creative writing and etc which is highly saturated, embedded within culture and comes with high cost of entry but yields very little in terms of tangible real world value to the students in terms of entering the career workforce or monetizing it for themselves. With the MFA's alignment of the fourth industrial revolution, we are confident that this will cause a shift in the masses who will take up our programme to be better equipped in a world post 2020.*

We are not another filmmaking school but an education centre that uses filmmaking techniques to instil **IR4.0 life skills and core values** as well as positive life and learning attitudes using filmmaking methods in a fun-filled journey of lively classes.

# CHILDREN DEMOGRAPHIC

*The MFA provides accredited education to the children demographics in 2 forms with an emphasis of using what you already have in your pocket. A smartphone/tablet :-*

**01**

## INTERNATIONAL/PRIVATE SCHOOLS

- *Semester based classroom settings with a one big film project output as the spine for the syllabus.*

**02**

## CENTRE STUDIES

- *A curriculum which emphasizes a Grade 1-8 progression and a “student come to centre” model.*

A photograph of several students in a classroom. In the foreground, a student is holding a tablet. In the background, other students are looking at their devices. One student is wearing a white t-shirt with 'PARIS' written on it. The scene is brightly lit, suggesting a modern educational environment.

# INTERNATIONAL/PRIVATE SCHOOLS

## HOW DOES A TYPICAL CLASSROOM SESSION LOOK LIKE?

These will be integrated into after hours/elective classes which targets group classes.

The syllabus will be adapted dependent on different age groups but will cover a few core pillars:

- Educating on the technical side of filmmaking utilizing the micro device, app and some form of stabilization (hand/tripod/gimbal).
- Educating on the critical thinking process in terms of formulating an idea and articulating it into a script/storyboard, shooting and then editing.
- Integrating the pillars of effective learning into the syllabus at every lesson (crucial fundamental disciplines).
- Encouraging the students to work as a team and execute the project.
- The final film will premiere ala a red carpet "Academy Award" film premiere which will inspire them that hardwork does pay off when they see their film on the big screen and garner the cheers and adoration of family and friends.

# INTERNATIONAL/PRIVATE SCHOOLS

## SAMPLE INTERNATIONAL/PRIVATE SCHOOL CLASS LESSONS

*The entire semester is focused on the creation of a single film based on a mutual interest agreed to by the students and will be divided into **3 main parts**.*

01

PRE-PRODUCTION

02

PRODUCTION

03

POST-PRODUCTION

- *Every class is divided into a 60 minute session.*
- *15 minutes warmup activity.*
- *15 minutes mental exercises/lesson.*
- *20 minutes work on the progress of the film.*
- *10 minutes public speaking activity to present and solidify ideas.*

# CENTRE STUDIES

Essentially, this is a more expanded curriculum and covers Grade 1-8.

**GRADE 1**

**GRADE 8**

- Students would be procured from the pool of existing students from the international /private schools who wish to develop their skills further and also to extended student markets(such as national school students).
- This would cover more in-depth study with a mix of theory and practical.
- The supervision and tutelage of the instructor will be more concentrated to a 1-1 or smaller group class specification.
- More diverse genres of film will be explored based on the ability and interest of the student and then they are matched up with like-minded students to collaborate and work together on producing output for social media/film festival submissions.

# OUR TRAINER

## GARY CHONG (M.A)

### FILMMAKER

Gary Chong is an award-winning filmmaker and founder of Gary Chong Studios, a production house which has produced over 528 videos over the past 8 years for MNC and GLC brands such as DIGI, Axiata, Ecoworld, AXA, Berjaya, Dumex, Taylor's Group, Foodpanda, Mah Sing, Sunway, Maybank, Carlsberg, Alliance Bank and many others.
